Grass roots community development

Celebrating 11 years! 2000 - 2011

Co-founded by five women residents

Support by volunteers

WHAT WE DO

Main St. Program

Revitalizing the downtown with assistance of NYS Main St Program. Funding provided by NYS Homes & Community Renewal.

Small Business

Assisting new businesses with funding and development of commercial and storefront space. Referrals to Columbia County Micro-business courses and SBA funding.

Community Arts, Crafts, & Trades

Exhibitions of trades and crafts at the PB Resource Center. Trade referrals for NYMS renovation projects. Connecting community arts to downtown revitalization.

Philmont Farmers' Market

Managing a small seasonal village market in the downtown consisting of over 12 local small grower farms and vendors within a 12 mile radius to Philmont.

HOW WE DO IT

Programs interconnect

Each program developed works with the four existing programs: Main St. revitalization, Small Business, Community Arts, and the Farmers' Market.

All programs intersect through the involvement of community volunteers. **For example**, the Farmers' Market intersects with our Main St. program by providing a downtown revitalization activity. It supports small business, provides volunteer opportunities, and connects the downtown to surrounding farmland and local farmers.

The Arts, Crafts, and Trades program intersects with local small business through exhibitions and educational workshops. These address community concerns, educational themes, and community development through outreach and staged events.

YOU CAN BE A PART

Mentor a project or program

Projects are developed based on community consensus. **For example** our Main St. program includes three volunteer steering groups which select and advise on program projects.

A Selection Review Committee helps determine which buildings receive Main St. renovation funding assistance; a NYMS Design Committee consults on historic restorations.

Our farmers' market is informed by farmer input and feedback to assist steady market growth, new ideas, and program sustainability.

The Arts, Crafts, and Trades program is advised by local artists and tradespeople, and curators who mount our storefront exhibitions.

Mentor the organization

Become an advisor to help us reach program goals, objectives, and administration sustainability.
